The path to excellence
starts here!

What is POE?

Portfolio of Excellence (POE) is a mentoring program that helps you to make good choices.

POE sets you up for success both academically and personally during your college experience.

POE will help you do the things that you would want and plan to do anyway, but with some strategic guidance and endless support!

You'll have a portfolio of "stuff" you can use to start a solid resume and demonstrate your talents to future employers or graduate schools.

How would you like to graduate from college knowing that you are Excellent?

To sign up, visit:

Ever had a Mentor before?
A big part of the program is the opportunity to work with mentors who can help you be successful.

You'll get to know a BSU staff or faculty member as a Mentor as your mentor.
You'll meet and talk with all these folks, write and reflect on your experiences as a student participating in campus life and working towards academic success.
