

How much time does Excellence actually take?

How often you meet as a group will depend on how much your group likes to meet!

You will do a lot of “meeting” online through blogs and your POE portfolio.

This program is NOT designed to cause you more work!

Do I have to achieve excellence all by myself, or is there help along the way?

A big part of the program is getting to work with mentors who can help you be successful.

You will meet with students participating in POE in groups based on your academic, personal, and career goals.

You’ll get to know a Bridgewater State University staff or faculty member as a mentor. You’ll meet, talk, and write/reflect on your opinions for participating in campus life and working towards academic success!

Portfolio of Excellence F.A.Q. Sheet

Outcomes of POE:

- POE will make you more efficient.
- You will become more adventurous about trying new things.
- You will have access to your online portfolio for your entire college career and after you graduate to use for internships, graduate school, or as part of your materials as you apply to a first job.
- POE will enable you to make good choices about how to spend your time at Bridgewater.
- POE will prepare you for the kind of college career you want to have and the kind of life you want to have after you graduate.

Am I excellent enough for a program called Portfolio of Excellence?

The folks that put this program together feel relatively certain that *YOU* are excellent enough, and we’ve tried to design a program to help show you not only how excellent you are, but how excellent you can be!

Is the portfolio part of POE really excellent?

You will keep track of your activities through the college's IN Network.

Your goal setting, reflections, outstanding student work and writing and what ever else you want to collect will be house electronically in your own special POE website.

YES, it really is that excellent!
