### Have You Heard About The Nunckatessett Greenway?

Come to the **Nunckatessett Greenway Stakeholder's Meeting** on April 4th at 3:00pm in the Heritage Room, Maxwell Library at Bridgewater State University. A Greenway is like a magnet that draws people into town— and into the downtown business districts. The NG Stakeholders' Meeting will be the first introduction of property owners, trail and parkland users, and interested citizens to each other and to the 14-mile corridor and the current rules & regulations that guide sustainable multi-use of this irreplaceable natural resource. This event should spark new interest in the future design and administration of this recreational corridor and its potential as an outdoor classroom to both public school districts and to the University as this area is rich with natural history, Native American lore, important and endangered species habitat, and recreational & economic potential. Click here to access the [NG Greenway Map & Text](#)

The **Swenson Track** will reopen for recreational walkers on March 15 from 7:00am to 10:00am, Monday - Saturday (still closed Sunday). The hours will expand as weather improves and BSU practice and game schedules allow.
