I choose to write question one. If you are being bullied or see someone being go try to help. Some ways you could help are talk to the person who is bullying and ask them to stop and talk it out and ask to be friends with the bully. If you are being bullied talk it out or be nice and try to make friends with him or her. I was playing pickle and my friend got out and another kid who was playing pickle called him a baby. My friend was sad so I came over and said it will be ok and now were best friends and we make sure that we don't get bullied. Another time I was in recess line when I heard someone say to someone that they had a staring problem. That made the kid sad so I said he doesn't have a staring problem. I played with the kid who got bullied at recess and now were friends. At the end of recess the kid who bullied the other kid came over and said I'm sorry can we be friends.
