Name Amanda Gray Question # 2
Third Grade: Mrs. Curry
Central School, East Bridgewater

Bullies can hit and bullies can kick. They could do it for many reasons, like some of these. They could bully you because of the color of your skin, what you wear, your disabilities, your name, and even just because they want to. They could bully you for some of these reasons and more. I do not think it is fair that a person is bullied because it is not right to get bullied for any reason. I wish that

nobody would never be
bullied so it would be an
even better world.
