Third grade

There are many ways you can help if a child is being bullied. The first solution stand up to the bully. Tell them "that's not right, so stop!" For an example in the story David and Goliath. David overcame the bully.

The second solution is to be

supportive of the person who
is being who is being bullied. Don't
just walk away! A third way to
handle a bully would be to go
get help! I would get an adult.
But the best way to teach other
people not to bully is to be an
example! Don't be a bully
be a good leader!
