I think bullies pick on people because some people look weird or have illnesses but that is no reason to make fun of them. But Bullies do. people come in all shapes and sizes, they were born that way, they cant help it. So what if they aren't exactly like you or look weird or talk weird they are human! I think people should be friends with anyone they want to be friends with without being made fun of by bullies right? It is just not fair! I can be nice to anyone, why cant bullies? Bullies shouldn't have friends if they are going to Bully them and you have to be nice to your friends and they will be nice to you. Bullies are always being mean. People usually hit bullies by accident and bullies get mad and bullie that person. Bullies deserve to go to the principals office. If Bullies stop being mean and talk about their problems they would have friends. I hate Bullies. Bullies shouldn't pick on people just because they are different, everyone is and you should not pick on them no matter how bad you want to. be nice and you will make friends!
