Economics of Global Resources & Climate Change: Understanding the How and Why of our Current Planetary Condition

1-2pm, Maxwell Library Heritage room

Every day we are provided with more factual evidence specific to the increasing speed of climate change. Media reporting routinely includes atmospheric changes, species habitat loss and extinction, and increased weather volatility. However, there has been little information shared on the underlying foundation of these observable and disturbing conditions. Dr. Madhavi Venkatesan, assistant professor of Economics, has been evaluating the role of economics in sustainability and in an hour long interactive lecture will provide a foundation for understanding the current planetary condition, as well as, the potential for improvement from the framework of values, behaviors, and economic outcomes.
Eyes on Africa: A Mandela Legacy Series

Canadian Studies Film Series: Arctic Defenders
5:30-9pm, Maxwell Library Lecture Hall
The Canadian Studies program is pleased to host a screening of Arctic Defenders, a film that examines the story of the Canadian north and the creation of the territory of Nunavut. The film traces the history of the Inuit people and explores multiple ideas of sovereignty; the sovereignty of the Inuit within Canada is positioned against and alongside the Canadian government’s claims for Arctic sovereignty, particularly as global warming has made the region more accessible in recent decades. Most critically, Arctic Defenders shines a light on parts of Canadian history and culture that have often been ignored or overlooked. The event will take place on Thursday, November 20, beginning at 5:30pm in Maxwell 013. All are welcome to attend.

**FRIDAY, NOVEMBER 21**
